Re:

Commission's Investigation Into the Political Spending of Arizona Public Service Company and its Affiliates Docket No. E-01345A-19-0043

Arizona Public Service Company (APS) is responding to the request for information from Chairman Robert Burns and Commissioner Boyd Dunn dated February 27, 2019, as well as Commissioner Sandra Kennedy's administrative subpoena dated March 1, 2019.

The Commissioners have asked us to provide information that goes beyond what current law requires. Today we are voluntarily providing that information with the hope of putting the past behind us, so that together we can turn our full attention to serving customers with clean, reliable and affordable electricity to power Arizona's future.

The requests from Chairman Burns and Commissioners Dunn and Kennedy are primarily concerned with political spending before 2016, when Pinnacle West Capital Corporation (Pinnacle West) implemented a policy of transparency with respect to political participation. Attachment A to this letter details political spending for 2013 and 2014.

Attachment B includes previously released information on political spending for 2015, 2016 and 2017. Our 2018 political spending will be released on April 15, 2019 in accordance with our disclosure policy.

In addition, we are providing specific information on political contributions to organizations that participated in Arizona Corporation Commission (ACC) elections in 2014 and 2016 in Attachments C and D. Pinnacle West made \$10.7 million in political contributions to organizations that participated in the ACC elections in 2014. As previously disclosed, Pinnacle West made \$4.2 million in political contributions to organizations that participated in the 2016 ACC elections. Pinnacle West did not make political contributions to organizations that participated in the 2018 ACC elections.

Arizona Public Service Company March 29, 2019 Page 2

All of this information is provided in addition to other regular filings in accordance with existing financial disclosure laws.

It is important to note that when the company participates in the political process, all engagement occurs through Pinnacle West and is funded through Pinnacle West earnings, not through APS customer rates.

Chairman Burns and Commissioner Dunn also requested information on any written correspondence between a Commissioner and APS or Pinnacle West or its employees related to solicitations or contributions for charitable organizations. After conducting extensive research, we are not aware of any such communications and to the best of our knowledge no such communications occurred.

APS is also responding to Commissioner Kennedy's subpoena today. While Commissioner Kennedy's subpoena also requested information on political contributions, it requested other information as well, including information on lobbying expenses, advertising expenses and charitable contributions. In the spirit of cooperation and transparency, we are voluntarily responding.

APS regularly seeks to inform decision makers about issues affecting our ability to serve customers with clean, reliable and affordable energy, so that our perspectives can be weighed alongside other views in the formation of sound energy policy. We believe informed decision makers are best prepared to make policy and law. As part of that effort, APS engages in lobbying. Although customers benefit from this activity, APS does not include lobbying expenses in customer rates. Table 1 below shows APS's Lobbying Expenses for years 2013 through 2018.

APS uses many forms of communication, including paid advertising, to inform our customers about their electricity service. Our current campaign called "100 Days of Helping" is designed to help customers better prepare for higher bills in the summertime, and is just one example of how advertising can inform customers and help them manage their bills. Pinnacle West also invests in the economic and cultural vitality of the greater Arizona community through corporate sponsorship of various organizations and events. Pinnacle West expenditures are not included in customer rates. Table 2 below shows advertising, marketing and sponsorship expenses from 2013 through 2018.

The Arizona economy is thriving, to the benefit of Arizona communities and constituents. Arizona is a national leader in clean energy and has created a business-friendly environment, positioning the state for continued, long-term economic health and success. The ACC has an important slate of energy policy matters to tackle including revisiting the renewable and energy efficiency standards, determining policy on electric vehicle infrastructure and seeking solutions to forest health issues.

APS is providing this information today voluntarily¹ in the spirit of putting behind us any further debate regarding political spending, and with the hope that we can focus on the future to further the energy and economic goals of the state. We look forward to working with the Arizona Corporation Commission and each Commissioner on the important energy policy matters before us.

Sincerely,

Barbara Lockwood

Political Participation Policy

February 2016

1. PURPOSE

- 1.1 Pinnacle West Capital Corporation ("Pinnacle West" or "the Company") participates in the democratic process to advance our long-term business interests and the interests of our customers, employees, communities and shareholders. We believe that broad political participation contributes to a strong democracy, promotes good government and encourages sound policymaking.
 - 1.1.1. Our company's principal subsidiary, Arizona Public Service Company ("APS") has the responsibility to provide customers in our service territory with safe, reliable and affordable electricity. Because Pinnacle West and APS participate in a wide range of business activities to fulfill this responsibility, policy decisions at the federal, state and local levels can have profound impacts on virtually all aspects of our business.
 - 1.1.2 Our experience and expertise gives us an informed perspective on how public policy can affect our company, our customers and Arizona's energy future. We have a responsibility to our customers, employees, communities and shareholders to participate in the political process, when appropriate, so that our perspectives are heard and so that we can develop productive working relationships with governmental decision-makers.
- 1.2 The purpose of this policy is to promote compliance with all applicable federal, state and local laws, rules, and regulations surrounding political contributions by Pinnacle West in a manner consistent with our values.

2. POLICY STATEMENTS

- 2.1. As one of the largest and longest-serving local businesses in Arizona, Pinnacle West takes its commitment to corporate citizenship seriously. Being a good corporate citizen includes being informed about issues, encouraging our employees to volunteer and participate in their communities, speaking publicly about the issues of the day, sponsoring a political action committee and, where permitted by law, considering the contribution of corporate funds to political candidates, political parties and organizations that engage in political activity.
- 2.2 Many factors guide our political contribution decisions. In general, we support candidates and organizations that share an interest in public policy that furthers our business objectives and promotes our mission of creating a sustainable energy future for Arizona. The

Company's contribution decisions are based on what is in the best interests of Pinnacle West and not based on the personal preference of our executives.

- 2.3 We do not make corporate contributions to political candidates or office holders where prohibited by law. No political contribution will be given in anticipation of, in recognition of, or in return for any official act.
- 2.4 We contribute to entities organized and operating under section 527 of the Internal Revenue Code (tax exempt organizations that engage in political activities). We also make contributions to non-profit groups that are organized and operated to promote social welfare. These groups may also engage in political activities, so long as such activities do not become their primary purpose.
- 2.5 We participate in federal, state, and local issues through membership in trade associations, which we join to represent various business and industry interests. In addition, we actively promote the economic health of the jurisdictions we serve through our activities with chambers of commerce. Depending on their roles, these organizations may be subject to lobbyist registration and disclosure reporting obligations, with their reports being made available to the public by the federal and state agencies overseeing lobbying activities.
- 2.6 The Company discloses all political contributions as required by law. We provide a voluntary annual report of contributions made to organizations operating under section 527 of the Internal Revenue Code. We also provide a voluntary annual report of the portion of our trade association dues used for lobbying purposes, when those groups provide that information to us.
- 2.7 Our decision to support an organization may be guided by a shared view on a specific issue, or may reflect a more general agreement on public policy. Pinnacle West may not always agree with political positions taken by such organizations; however, on balance, the Company believes when it makes a contribution to such organizations that it receives more benefit than detriment.
- 2.8 Pinnacle West encourages its employees to be active members of their communities.

 Along with participation in civic, charitable and volunteer activities, this includes participation in the political process. All eligible employees of Pinnacle West may make voluntary contributions to the Pinnacle West Political Action Committee ("PNWPAC"). The PNWPAC is a voluntary, nonprofit, non-partisan political association created to provide an easy and effective means for eligible employees to become politically involved on behalf of the Company and support candidates for federal, state and local office.

- 2.8.1 Federal law permits lawful administrative support of PNWPAC from Pinnacle West. PNWPAC provides timely, complete and accurate disclosure of its political contributions as required by law.
- 2.9 Pinnacle West encourages employees to participate in the political process personally by voting and by supporting candidates of their choosing. Such participation is not in the Company's name or on its behalf. Employees will not be reimbursed for personal political contributions or expenses, either directly or through compensation increases.
- 2.10. Some Pinnacle West employees choose to serve their communities by holding public office. We encourage these employees and appreciate their public spirit. Employees of Pinnacle West who wish to campaign for, or serve in, public office must first notify their supervisor and the Senior Vice President of Public Policy.
 - 2.10.1. Employees are not permitted to campaign on work time, nor can they use company resources to further their campaigns. Employees must clearly communicate that they are acting as private individuals, that their views are their own, and that they are not representing or endorsed by the Company.
 - 2.10.2. Employees who hold public office must recuse themselves from matters directly involving Pinnacle West. If an employee in public office is uncertain whether an issue directly affects Pinnacle West, he or she should contact the Senior Vice President of Public Policy.

3. OVERSIGHT

3.1. During the first quarter of each calendar year management reviews with the Corporate Governance Committee its governmental affairs strategies for the year, including the policies and priorities for the Company's political expenditure and lobbying activities expected to be undertaken in furtherance of such strategies. During the year, management periodically reports to the Corporate Governance Committee on the progress of the Company's strategy, including any significant activities not encompassed within the initial strategy discussion. At each Board meeting the Corporate Governance Committee provides a summary to the Board of the matters discussed at its meetings. In addition, as part of its reporting responsibilities to the Board after year-end, management summarizes the actions taken in furtherance of its governmental affairs strategy during the year. At least annually, the Corporate Governance Committee reviews this policy and recommends to the Board any revisions it deems necessary. Our Board's oversight of our governmental affairs strategy ensures compliance with applicable law and alignment with our policies and Code of Ethics and Business Practices.

- 3.2. Corporate contribution decisions are made primarily by our Vice President, Federal Affairs and Vice President, State and Local Affairs, based on the guidelines and objectives described in this policy and the strategy reviewed with the Corporate Governance Committee of our Board. These executives typically receive input from other members of our senior management team, including our Chief Executive Officer.
- 3.3. The PNWPAC is directed by a board comprised solely of employees, which makes and approves all decisions regarding political contributions and budget. Potential contributions to candidates and/or political committees are reviewed by a five-member PNWPAC executive committee, which makes recommendations for contributions to be considered by the PNWPAC board of directors. The articles of organization of the PNWPAC can be found here.

Along with participation in civic, charitable and volunteer activities, this includes participation in the political process. All eligible employees of Pinnacle West may make voluntary contributions to the Pinnacle West Political Action Committee ("PNWPAC"). The PNWPAC is a voluntary, nonprofit, non-partisan political association sponsored by Pinnacle West to provide an easy and effective means for eligible employees to become politically involved if they wish to do so.
- 3.2. The PNWPAC is directed by a board comprised solely of employees, which makes and approves all decisions regarding political contributions and budget. Potential contributions are reviewed by a five-member PNWPAC executive committee, which makes recommendations for contributions to be considered by the PNWPAC board. The articles of organization of the PNWPAC can be found **here**. Applicable law permits administrative support of PNWPAC from Pinnacle West. PNWPAC provides timely disclosure of its political contributions as required by law.

- 3.3. Pinnacle West encourages employees to participate in the political process personally by voting and by supporting candidates of their choosing. Such participation is not in the Company's name or on its behalf. Employees will not be reimbursed for personal political contributions or expenses, either directly, through compensation increases, or otherwise.
- 3.4. Some Pinnacle West employees choose to serve their communities by holding public office. We encourage these employees and appreciate their spirit of public service. Employees of Pinnacle West who wish to campaign for, or serve in, public office must first notify their supervisor and the Senior Vice President of Public Policy.
 - 3.4.1. Employees are not permitted to campaign on work time; nor can they use company resources to further their campaigns. Employees must clearly communicate that they are acting as private individuals, that their views are their own, and that they are not representing or endorsed by the Company.
 - 3.4.2. Employees who hold public office must recuse themselves from matters directly involving Pinnacle West. If an employee in public office is uncertain whether an issue directly affects Pinnacle West, he or she should contact the Senior Vice President of Public Policy.

4. OVERSIGHT

- 4.1. Corporate contribution decisions are made primarily by our Vice President, Federal Affairs, and Vice President, State and Local Affairs, based on the guidelines and objectives described in this Policy. These executives typically receive input from other members of our senior management team, including our Chief Executive Officer.
- 4.2. During the first quarter of each calendar year management reviews with the Corporate Governance Committee of the Board of Directors its anticipated governmental affairs strategies for the year, including the priorities for the Company's political expenditure and lobbying activities. During the year, management periodically reports to the Corporate Governance Committee on the progress of the Company's strategy, including any significant activities not encompassed within the initial strategy discussion. Following each of its meetings, the Corporate Governance Committee provides a summary to the Board of the matters involving political activities, which were discussed at the meeting. In addition, as part of its reporting responsibilities to the Board after year-end,

management summarizes the actions taken in furtherance of its governmental affairs strategies during the year.

4.3. At least annually, the Corporate Governance Committee reviews this Policy and recommends to the Board any revisions it deems necessary. Our Board's oversight of our governmental affairs strategy ensures compliance with applicable law and alignment with our policies and Code of Ethics and Business Practices.

Dear Lucy and Vernon:

Your letter dated June 18, in essence, asks us to commit that no organization we have ever done business with, or financially supported, will ever contribute to the campaign of a candidate for the ACC, or to an organization involved in ACC electoral politics. As you surely understand, that is impossible.

As a practice, APS has not contributed to the campaigns of candidates for our regulator, the Arizona Corporation Commission, even though there are no local, state or federal regulations that prevent us from doing so. Instead, we have elected to provide all ACC candidates, including yourselves, with equal access to information regarding energy policies and issues affecting APS and our customers. We are committed to working with the ACC to plan for Arizona's energy future so that we can continue to power our state with safe, reliable and affordable electricity. Nothing we have done or would do by way of advocacy conflicts with these priorities.

But as you are undoubtedly aware, the political landscape is changing. Because of the tactics a number of organizations are employing to misrepresent important regulatory issues, we may need to respond in the future to set the record straight on issues of importance to Arizona, our customers and our company.

Please know that we remain open to constructive discussions with both of you as well as any other candidates running for ACC.

Mr. Donald E. Brandt Chief Executive Officer Pinnacle West & APS 400 N 5th Street Phoenix, AZ 85072

Dear Mr. Brandt,

We are writing you in regard to two issues.

First, the contribution made by the Pinnacle West PAC to a candidate running for the board of Salt River Project seems to be a distinct shift away from Pinnacle West/APS' previous stated position concerning contributions to or against candidates involved with utility regulation.

Second, just this weekend, an independent expenditure committee named Arizona 2014 sent a mass email soliciting Clean Election qualifying contributions for the campaigns of Tom Forese and Doug Little. Based on Arizona 2014's filing with the Secretary of State, it appears the committee's Chairman is Max Fose of IWS.

On February 11, 2014, Jessica Pacheco reiterated to Vernon Parker APS' long-held position that it would not attempt to influence the election of candidates to the Arizona Corporation Commission. Our campaigns appreciated her candor and agreed with the position.

However, these two situations cause us concern. Since APS is, in essence, a regulated monopoly, the ratepayers of Arizona deserve complete honesty and transparency. To do anything less would be a violation of the trust placed in APS by the Corporation Commission and more importantly by the ratepayers themselves.

It is our opinion that it would be highly inappropriate for APS or its parent company Pinnacle West to influence the elections of its regulators in anyway. You can imagine that this type of activity raises issues that we, as candidates for the Arizona Corporation Commission, would appreciate to be clarified.

In an attempt to gain clarification, we have composed the following questions. We would appreciate an answer to them by 5:00 pm on Friday, June 20, 2014.

 Does APS/Pinnacle West still maintain the position that it won't contribute money to a candidate running for Arizona Corporation Commission? By money, we mean any cash available to APS/Pinnacle West?

- Does APS/Pinnacle West still maintain the position that it will not contribute or give any money to an outside organization (Super PAC/501 c4/Consultant/or any other type of organization that can legally influence an election through express advocacy or issue advocacy) that could be used to influence the election for Arizona Corporation Commission?
- 3) Has APS/Pinnacle West every hired IWS as a consultant? If so, is IWS still working as a consultant for APS/Pinnacle West?
- 4) Has APS/Pinnacle West transferred funds to Arizona Voter Education Project so it can hire IWS to conduct an independent expenditure?
- 5) Does APS/Pinnacle West still maintain that it will not encourage implicitly or explicitly an outside organization (Super PAC/501 c4/Consultant/or any other type of organization that can legally influence an election through express advocacy or issue advocacy) to promote or oppose a candidate for Arizona Corporation Commission?
- 6) Does APS/Pinnacle West still maintain the position that no funds from a political action committee it controls will be used to promote or oppose a campaign of a candidate for Arizona Corporation Commission?

Thank you for your attention to these issues.

Sincerely,

Yernon B. Parker

Mr. Donald & Brgndt Chief Exercitive Officer = Finnacie West & APS 400 N 5th Street Phoenix, AZ 85072

Dear Mr. Brandt,

We are in receipt of the letter from Mr. Schiavoni dated June 20, 2014.

One word came to our minds when we read Mr. Schiavoni's letter - disingenuous!

Our questions were simple enough. It's absurd that as a regulated monopoly, you refuse to be upfront and transparent with us and, more importantly, with Arizona ratepayers.

Your non-answers to our very specific questions serve as a clear confirmation that you do plan to influence the election of candidates who may one day be your regulators.

The most recent evidences of your intent to influence the election of your future regulators may be the excessive independent expenditures made by the Arizona Pree Enterprise Club. To date, they have spent over \$180,000 supporting the campaigns of our opponents. We have a simple question. Did.

APS/Phynacic West funnel money in any way to the Arizona Pree Enterprise Club to pay for their campaign activities?

The people of Arizona deserve transparency and honesty where your company is concerned. Instead, you have chosen the route of deception and secrecy.

Because of your refusal to be transparent, Laurie Roberts, a respected columnist for the Arizona Republic offered potentially explosive speculation about how far APS will go in its political efforts. She speculated in a column on July 5th that APS is picking candidates to support based on quid pro quo arrangements. If even partially true, the consequences to Arizona are severe.

This is a serious accusation made by a respected journalist, one that can easily be rebuffed by an outright demail, you offer a vague and unclear statement.

It is our deepest hope that this is just rumor. Unfortunately, APS' non-answer fuels the axiom where there is smoke there is fire.

APS owes the people of Arizona a better answer than the one reported by Laurie Roberts. As potential regulators of APS, you owe us a better answer as well. We never imagined that we would be lighting our state's largest corporation in this campaign.

Our top priority from the beginning of this campaign has been to protect Arizona ratepayers against the influence of special interests. We reached out to APS on multiple occasions asking for a good working telationship, instead, you have chosen to wage a secret campaign against us.

When your company attempts to 'buy and pay for' its regulators, you are planting the seeds for an 'Enron-like' moment to happen. Arizona ratepayers cannot be guaranteed affordable and reliable energy when the largest regulated monopoly handpicks it regulators.

Mr. Schievoni sain several things in his letter that deserve a response.

1) Mr. Schiavoni said, "your letter dated June 18, in essence, asks us to commit that no organization we have ever done business with, or financially supported will ever contribute to the campaign of a candidate for ACC, or to an organization involved in ACC electoral politics. As you surely understand, that is impossible."

Well, we don't understand. We asked six specific questions. You chose to answer only one of them, and that was vague at best.

Previously, both of us had been assured that APS did not get involved with Corporation.

Commission rates "for the obvious" reasons. If that were true, it should be easy enough to communicate to your vendors or charitable contribution recipients that you expect them to refrain from involvement in the Corporation Commission races.

2) We appreciate that you wrote "as a practice, APS has not contributed to the campaigns of candidates for our regulator..." However, that only addressed one of our questions and even then left the door open to a change in practice.

Since both Mr. Forese and Mr. Little are running as Clean Election candidates it's difficult for APS/Pinnacle Wear to contribute to their campaign. It does appear that one of your consultants is actively engaged in helping our opponents collect their \$5 contributions. When a reporter asked whether IWS was still a consultant for APS, your spokesman replied that he knew IWS had been a consultant but didn't know whether he still was. Now I hope you see why "disingenuous" was the word that came to our mind when we read your response and your on-the-record comments.

How does a multi-billion dollar company not know whether someone is a consultant for them? APS' statements defy logic and common sense.

3) Furthermore, you say, "but as you are undoubtedly aware, the political landscape is changing. Because of the tactics a number of organizations are employing to misrepresent important regulatory issues, we may need to respond in the future to set the record straight on issues of importance to Arizona, our customers, and our company."

What do our campaigns have to do with the tactics of "a number of organizations"? We want all special interest groups to stay out of this campaign.

We did, in fact, attend a protest hosted by T.U.S.K. The reason for our attendance was to oppose a property tax that had recently been enacted by bureaucrats at the Department of Revenue. If APS sponsors a similar protest opposing property tax increases levied by bureaucrats, we would attend.

In conclusion, it is abundantly clear to us that members of your executive team have misrepresented APS' intentions in this race during our previous conversations.

APS has built up trust over the decades. Sadly, it appears that reputation for honesty is evaporating quickly. Trust, once lost is difficult to recover.

If there is anything in this letter that you would like to dispute, please respond to us by Tuesday, July 15 2014 at 5 p.m. Otherwise, we will be left with no choice but to believe that our letter is accurate with its stated opinion.

Thank you for your attention to these issues.

Sincerely,

Vernon B. Parker

Dear Lucy and Vernon:

Your letter dated June 18, in essence, asks us to commit that no organization we have ever done business with, or financially supported, will ever contribute to the campaign of a candidate for the ACC, or to an organization involved in ACC electoral politics. As you surely understand, that is impossible.

As a practice, APS has not contributed to the campaigns of candidates for our regulator, the Arizona Corporation Commission, even though there are no local, state or federal regulations that prevent us from doing so. Instead, we have elected to provide all ACC candidates, including yourselves, with equal access to information regarding energy policies and issues affecting APS and our customers. We are committed to working with the ACC to plan for Arizona's energy future so that we can continue to power our state with safe, reliable and affordable electricity. Nothing we have done or would do by way of advocacy conflicts with these priorities.

But as you are undoubtedly aware, the political landscape is changing. Because of the tactics a number of organizations are employing to misrepresent important regulatory issues, we may need to respond in the future to set the record straight on issues of importance to Arizona, our customers and our company.

Please know that we remain open to constructive discussions with both of you as well as any other candidates running for ACC.

Regards,

Mark Schiavoni

We have a Vernon Parker issue. I'll call you later today.

July 10, 2014

Mr. Donald E. Brandt Chief Executive Officer Pinnacle West & APS 400 N 5th Street Phoenix, AZ 85072

Dear Mr. Brandt,

We are in receipt of the letter from Mr. Schiavoni dated June 20, 2014.

One word came to our minds when we read Mr. Schiavoni's letter - disingenuous!

Our questions were simple enough. It's absurd that as a regulated monopoly, you refuse to be upfront and transparent with us and, more importantly, with Arizona ratepayers.

Your non-answers to our very specific questions serve as a clear confirmation that you do plan to influence the election of candidates who may one day be your regulators.

The most recent evidences of your intent to influence the election of your future regulators may be the excessive independent expenditures made by the Arizona Free Enterprise Club. To date, they have spent over \$180,000 supporting the campaigns of our opponents. We have a simple question. Did APS/Pinnacle West funnel money in any way to the Arizona Free Enterprise Club to pay for their campaign activities?

The people of Arizona deserve transparency and honesty where your company is concerned, instead, you have chosen the route of deception and secrecy.

Because of your refusal to be transparent, Laurie Roberts, a respected columnist for the Arizona Republic offered potentially explosive speculation about how far APS will go in its political efforts. She speculated in a column on July 5th that APS is picking candidates to support based on quid pro quo arrangements. If even partially true, the consequences to Arizona are severe.

This is a serious accusation made by a respected journalist, one that can easily be rebuffed by an outright denial. Yet, instead of an outright denial, you offer a vague and unclear statement.

It is our deepest hope that this is just rumor. Unfortunately, APS' non-answer fuels the axiom where there is smoke there is fire.

APS owes the people of Arizona a better answer than the one reported by Laurie Roberts. As potential regulators of APS, you owe us a better answer as well. We never imagined that we would be fighting our state's largest corporation in this campaign.

Our top priority from the beginning of this campaign has been to protect Arizona ratepayers against the influence of special interests. We reached out to APS on multiple occasions asking for a good working relationship. Instead, you have chosen to wage a secret campaign against us.

When your company attempts to "buy and pay for" its regulators, you are planting the seeds for an "Enron-like" moment to happen. Arizona ratepayers cannot be guaranteed affordable and reliable energy when the largest regulated monopoly handpicks it regulators.

Mr. Schiavoni said several things in his letter that deserve a response.

1) Mr. Schiavoni said, "your letter dated June 18, in essence, asks us to commit that no organization we have ever done business with, or financially supported will ever contribute to the campaign of a candidate for ACC, or to an organization involved in ACC electoral politics. Mr. Donald E. Brandt Chief Executive Officer Pinnacle West & APS 400 N 5th Street Phoenix, AZ 85072

Dear Mr. Brandt.

We are writing you in regard to two issues.

First, the contribution made by the Pinnacle West PAC to a candidate running for the board of Salt River Project seems to be a distinct shift away from Pinnacle West/APS' previous stated position concerning contributions to or against candidates involved with utility regulation.

Second, just this weekend, an independent expenditure committee named Arizona 2014 sent a mass email soliciting Clean Election qualifying contributions for the campaigns of Tom Forese and Doug Little. Based on Arizona 2014's filing with the Secretary of State, it appears the committee's Chairman is Max Fose of IWS.

On February 11, 2014, Jessica Pacheco reiterated to Vernon Parker APS' long-held position that it would not attempt to influence the election of candidates to the Arizona Corporation Commission. Our campaigns appreciated her candor and agreed with the position.

However, these two situations cause us concern. Since APS is, in essence, a regulated monopoly, the ratepayers of Arizona deserve complete honesty and transparency. To do anything less would be a violation of the trust placed in APS by the Corporation Commission and more importantly by the ratepayers themselves.

It is our opinion that it would be highly inappropriate for APS or its parent company Pinnacle West to influence the elections of its regulators in any way. You can imagine that this type of activity raises issues that we, as candidates for the Arizona Corporation Commission, would appreciate to be clarified.

In an attempt to gain clarification, we have composed the following questions. We would appreciate an answer to them by 5:00 pm on Friday, June 20, 2014.

Does APS/Pinnacle West still maintain the position that it won't contribute money to a candidate running for Arizona Corporation Commission? By money, we mean any cash available to APS/Pinnacle West?

- 2) Does APS/Pinnacle West still maintain the position that it will not contribute or give any money to an outside organization (Super PAC/501 c4/Consultant/or any other type of organization that can legally influence an election through express advocacy or issue advocacy) that could be used to influence the election for Arizona Corporation Commission?
- 3) Has APS/Pinnacle West every hired IWS as a consultant? If so, is IWS still working as a consultant for APS/Pinnacle West?
- 4) Has APS/Pinnacle West transferred funds to Arizona Voter Education Project so it can hire IWS to conduct an independent expenditure?
- Does APS/Pinnacle West still maintain that it will not encourage implicitly or explicitly an outside organization (Super PAC/501 c4/Consultant/or any other type of organization that can legally influence an election through express advocacy or issue advocacy) to promote or oppose a candidate for Arizona Corporation Commission?
- 6) Does APS/Pinnacle West still maintain the position that no funds from a political action committee it controls will be used to promote or oppose a campaign of a candidate for Arizona Corporation Commission?

TOY VERNON DESCRIPTION OF THE CORPORATION COMMISSION

July 15, 2014

Mr. Donald E. Brandt Chief Executive Officer Pipparle West & APS 400 N 50 Street Phoenix AZ 85004

Dear Mr. Branct,

We are writing you today in your official capacity as a member of the Board of Directors for Pinnacle West LAPS.

I'm sure you have followed the recent news stories surrounding the independent expenditures being conducted for our opponents through secretive and non-disclosure based entities.

We have asked you on several occasions for clarification on this issue. If Pinnacle West/APS were not behind the effort, a simple denial would have been appropriate. However, you were unable to give a simple denial. Therefore, we are left with no other conclusion than to believe that Pinnacle West/APS is conducting a deceptive and secretive campaign on behalf of our opponents.

We have attached a mailer that was apparently sent to hundreds of thousands of Arizona voters maligning Mr. Vernon Parker. We have also attached a statement issued by Paul Charlton, one of the most respected attorneys in Arizona, debunying these false and libeling allegations.

We are hereby putting you on notice that if any further advertising is distributed through Pinnade West/APS financed conduits; then Mr. Parker will be left with no other option but to pursue all legal remedies against Pinnacle West/APS.

As a practical matter, we implore you to oppose this type of "east coast political thuggery." If it isn't illegal for Pinnade West/APS to attempt to handpick its regulators, it is highly inappropriate. We have both lived in Arizona for decades. Pinnacle West/APS has been one of our state's great institutions. Please don't be the Board of Directors that oversees its demise.

As a point of information, we both reached out to executives of Pinnacle West/APS when we first entered the campaign. Our goal was to understand your issues so we could make decisions that are in the best interests of the ratepayer. Unfortunately, our attempt at a good-faith partnership was met with deceit, secrecy and the politics of personal destruction.

Your company is rapidly losing credibility. Please step in and save it.

Sincerely,

Transació Barber

Statement by former United States Attorney Paul K. Charlton, concerning Vernon Parker and the Small Business Administration

I represented Vernon Parker in the matter before the Small Business Administration (SBA) in 2008. I have been on record countless times expressing my outrage in the frivolous allegations brought against him. In 2010 I wrote a campaign that tried to exploit the untrue nature of the SBA dealings the following:

"The Inspector General never charged, convicted, or proved anything against Vernon Parker on this matter. They conducted a poor investigation and we proved through the SBA that the investigation was profoundly flawed. By way of example, Vernon did not alter or forge any documents. We proved the falsity of that allegation through sworn affidavits. The SBA itself came to this determination..."

Finformed a campaign that attacked Vernon in 2010 that the gravity of their false statements made mallerously is a serious matter. I have affached the letter that I sent in 2010 to a campaign making the same musleading and false statements. Tasked them to cease and desist (See Attached).

I stand by my previous statements concerning Vernon and this matter. I am sorry to have to see Vernon go through this.

PERSONAL AND CONFIDENTIAL

I represent Vernon Parker before the Small Business Administration. I tinderstand that you and your campaign have made public statements regarding that matter. I write to correct a number of false and misleading statements made by your campaign.

The Inspector General never charged, convicted, or proved anything against Vernon Parker on this matter. They conducted a poor investigation and we proved through the SBA that the investigation was profoundly flawed. By way of example, Vernon did not after or forge any documents. We proved the falsity of that allegation through sworn affidavits. The SBA itself came to this determination. The falsities that lie within the IG report are why we are currently, suing the federal government.

I am sure you understand the gravity of false statements made muliciously. Mask-that your campaign cease and desist any further spreading of false information through any media, either over the telephone, the television, the radio or in the mail.

Please feel free to contact me should you need any further information regarding this matter.

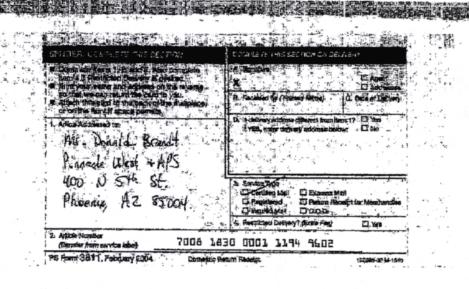

Very truly yours,

Mr. Donald E. Brandt Chief Executive Officer Pinnacle West & APS 400 N 5th Street Phoenix, AZ 85072

Dear Mr. Brandt,

We are in receipt of the letter from Mr. Schiavoni dated June 20, 2014.

One word came to our minds when we read Mr. Schiavoni's letter - disingenuous!

Our questions were simple enough. It's absurd that as a regulated monopoly, you refuse to be upfront and transparent with us and, more importantly, with Arizona ratepayers.

Your non-answers to our very specific questions serve as a clear confirmation that you do plan to influence the election of candidates who may one day be your regulators.

The most recent evidences of your intent to influence the election of your future regulators may be the excessive independent expenditures made by the Arizona Free Enterprise Club. To date, they have spent over \$180,000 supporting the campaigns of our opponents. We have a simple question. Did APS/Pinnacle West funnel money in any way to the Arizona Free Enterprise Club to pay for their campaign activities?

The people of Arizona deserve transparency and honesty where your company is concerned. Instead, you have chosen the route of deception and secrecy.

Because of your refusal to be transparent, Laurie Roberts, a respected columnist for the Arizona Republic offered potentially explosive speculation about how far APS will go in its political efforts. She speculated in a column on July 5th that APS is picking candidates to support based on quid pro quo arrangements. If even partially true, the consequences to Arizona are severe.

This is a serious accusation made by a respected journalist, one that can easily be rebuffed by an outright denial. Yet, instead of an outright denial, you offer a vague and unclear statement.

It is our deepest hope that this is just rumor. Unfortunately, APS' non-answer fuels the axiom where there is smoke there is fire.

APS owes the people of Arizona a better answer than the one reported by Laurie Roberts. As potential regulators of APS, you owe us a better answer as well. We never imagined that we would be fighting our state's largest corporation in this campaign.

Our top priority from the beginning of this campaign has been to protect Arizona ratepayers against the influence of special interests. We reached out to APS on multiple occasions asking for a good working relationship. Instead, you have chosen to wage a secret campaign against us.

When your company attempts to "buy and pay for" its regulators, you are planting the seeds for an "Enron-like" moment to happen. Arizona ratepayers cannot be guaranteed affordable and reliable energy when the largest regulated monopoly handpicks it regulators.

Mr. Schiavoni said several things in his letter that deserve a response.

1) Mr. Schiavoni said, "your letter dated June 18, in essence, asks us to commit that no organization we have ever done business with, or financially supported will ever contribute to the campaign of a candidate for ACC, or to an organization involved in ACC electoral politics. As you surely understand, that is impossible."

Well, we don't understand. We asked six specific questions. You chose to answer only one of them, and that was vague at best.

Previously, both of us had been assured that APS did not get involved with Corporation Commission races "for the obvious" reasons. If that were true, it should be easy enough to communicate to your vendors or charitable contribution recipients that you expect them to refrain from involvement in the Corporation Commission races.

2) We appreciate that you wrote "as a practice, APS has not contributed to the campaigns of candidates for our regulator..." However, that only addressed one of our questions and even then left the door open to a change in practice.

Since both Mr. Forese and Mr. Little are running as Clean Election candidates, it's difficult for APS/Pinnacle West to contribute to their campaign. It does appear that one of your consultants is actively engaged in helping our opponents collect their \$5 contributions. When a reporter asked whether IWS was still a consultant for APS, your spokesman replied that he knew IWS had been a consultant but didn't know whether he still was. Now I hope you see why "disingenuous" was the word that came to our mind when we read your response and your on-the-record comments.

How does a multi-billion dollar company not know whether someone is a consultant for them? APS' statements defy logic and common sense.

3) Furthermore, you say, "but as you are undoubtedly aware, the political landscape is changing. Because of the tactics a number of organizations are employing to misrepresent important regulatory issues, we may need to respond in the future to set the record straight on issues of importance to Arizona, our customers, and our company." What do our campaigns have to do with the tactics of "a number of organizations"? We want all special interest groups to stay out of this campaign.

We did, in fact, attend a protest hosted by T.U.S.K. The reason for our attendance was to oppose a property tax that had recently been enacted by bureaucrats at the Department of Revenue. If APS sponsors a similar protest opposing property tax increases levied by bureaucrats, we would attend.

In conclusion, it is abundantly clear to us that members of your executive team have misrepresented APS' intentions in this race during our previous conversations.

APS has built up trust over the decades. Sadly, it appears that reputation for honesty is evaporating quickly. Trust, once lost, is difficult to recover.

If there is anything in this letter that you would like to dispute, please respond to us by Tuesday, July 15, 2014 at 5 p.m. Otherwise, we will be left with no choice but to believe that our letter is accurate with its stated opinion.

Thank you for your attention to these issues.

Sincerely,

Vernon B. Parker

Mr. Donald E. Brandt Chief Executive Officer Pinnacle West & APS 400 N 5th Street Phoenix, AZ 85072

Dear Mr. Brandt,

We are writing you in regard to two issues.

First, the contribution made by the Pinnacle West PAC to a candidate running for the board of Salt River Project seems to be a distinct shift away from Pinnacle West/APS' previous stated position concerning contributions to or against candidates involved with utility regulation.

Second, just this weekend, an independent expenditure committee named Arizona 2014 sent a mass email soliciting Clean Election qualifying contributions for the campaigns of Tom Forese and Doug Little. Based on Arizona 2014's filing with the Secretary of State, it appears the committee's Chairman is Max Fose of IWS.

On February 11, 2014, Jessica Pacheco reiterated to Vernon Parker APS' long-held position that it would not attempt to influence the election of candidates to the Arizona Corporation Commission. Our campaigns appreciated her candor and agreed with the position.

However, these two situations cause us concern. Since APS is, in essence, a regulated monopoly, the ratepayers of Arizona deserve complete honesty and transparency. To do anything less would be a violation of the trust placed in APS by the Corporation Commission and more importantly by the ratepayers themselves.

It is our opinion that it would be highly inappropriate for APS or its parent company Pinnacle West to influence the elections of its regulators in any way. You can imagine that this type of activity raises issues that we, as candidates for the Arizona Corporation Commission, would appreciate to be clarified.

In an attempt to gain clarification, we have composed the following questions. We would appreciate an answer to them by 5:00 pm on Friday, June 20, 2014.

Does APS/Pinnacle West still maintain the position that it won't contribute money to a candidate running for Arizona Corporation Commission? By money, we mean any cash available to APS/Pinnacle West?

- Does APS/Pinnacle West still maintain the position that it will not contribute or give any money to an outside organization (Super PAC/501 c4/Consultant/or any other type of organization that can legally influence an election through express advocacy or issue advocacy) that could be used to influence the election for Arizona Corporation Commission?
- 3) Has APS/Pinnacle West every hired IWS as a consultant? If so, is IWS still working as a consultant for APS/Pinnacle West?
- 4) Has APS/Pinnacle West transferred funds to Arizona Voter Education Project so it can hire IWS to conduct an independent expenditure?
- Does APS/Pinnacle West still maintain that it will not encourage implicitly or explicitly an outside organization (Super PAC/501 c4/Consultant/or any other type of organization that can legally influence an election through express advocacy or issue advocacy) to promote or oppose a candidate for Arizona Corporation Commission?
- 6) Does APS/Pinnacle West still maintain the position that no funds from a political action committee it controls will be used to promote or oppose a campaign of a candidate for Arizona Corporation Commission?

Thank you for your attention to these issues.

Sincerely,

Yernon B. Parker

Dear Lucy and Vernon:

Your letter dated June 18, in essence, asks us to commit that no organization we have ever done business with, or financially supported, will ever contribute to the campaign of a candidate for the ACC, or to an organization involved in ACC electoral politics. As you surely understand, that is impossible.

As a practice, APS has not contributed to the campaigns of candidates for our regulator, the Arizona Corporation Commission, even though there are no local, state or federal regulations that prevent us from doing so. Instead, we have elected to provide all ACC candidates, including yourselves, with equal access to information regarding energy policies and issues affecting APS and our customers. We are committed to working with the ACC to plan for Arizona's energy future so that we can continue to power our state with safe, reliable and affordable electricity. Nothing we have done or would do by way of advocacy conflicts with these priorities.

But as you are undoubtedly aware, the political landscape is changing. Because of the factics a number of organizations are employing to misrepresent important regulatory issues, we may need to respond in the future to set the record straight on issues of importance to Arizona, our customers and our company.

Please know that we remain open to constructive discussions with both of you as well as any other candidates running for ACC.

Subject: Officer email

I wanted to give you an advanced look at the email I plan on sending the officers later this afternoon:

Officers,

Those of you who attended the officer planning meeting on Friday heard from Don about the developments involving SolarCity and the Corporation Commission election, and our need to respond.

For those who weren't at that meeting, we learned late in the week that SolarCity had purchased a major television buy starting next week and likely continuing through the election. We believe that they intend to air commercials that support Bob Burns and Bill Mundell to significantly influence the election and ensure that their preferred Commissioner slate - Burns, Mundell and Chabin - defeat Tobin and Dunn. They are taking this action despite a written pledge to not participate in Corporation Commission elections.

Unfortunately, this development has required that we take action. An Independent Expenditure has been formed called Arizona Coalition for Reliable Electricity (ACRE). Pinnacle West is the sponsor and major funder of the IE and that will be clearly disclosed. The IE will support Burns, Tobin and Dunn. We expect to get significant media attention, and it is unlikely to be balanced or to call out SolarCity's involvement in the election. We have prepared a media statement, provided below, that will be given to the media when they contact us for a response and includes the key takking points.

We want to ensure that you, our leadership and our employees are aware of the circumstances that have prompted this action and that Pinnacle West is responding. Thus, when the media statement is issued, it will also be distributed on Newsline. If we need to release the media statement over the weekend, you will be notified so that you can engage your senior leadership team and explain what is occurring. Otherwise, on Monday morning you should talk to your leadership and encourage them to cascade the information to their teams and share the media statement with them as a resource.

This will undoubtedly be a challenging time between now and the election, and we appreciate your leadership in ensuring that our employees understand why we are taking this action and the circumstances that have prompted it. I am available over the weekend at 602-309- to answer any questions you have or to further discuss this with you.

Media Statement:

PNW Political Participation

California solar leasing companies have an enormous financial stake in issues that will be decided by the ACC

next year. To protect its narrow interests, SolarCity has broken its written promise to stay out of the ACC elections, and is spending big to support its favored candidates.

At stake is whether Arizona will lead in solar the right way, without driving up electricity bills for average customers; or whether those customers will pay higher and higher bills to subsidize huge profits for solar leasing companies.

With SolarCity now putting a massive infusion of spending into the campaign, we are compelled to take action. We have created a political effort called the Arizona Coalition for Reliable Energy to stand up for the best interests of Arizona consumers.

All we have ever asked from ACC Commissioners is that they study the issues, consider the facts, weigh the long-term impacts on all stakeholders and decide fairly. Based on the steady flow of misleading anti-APS rhetoric from the candidates funded by SolarCity, it's difficult to believe they could regulate APS or any utility impartially.

No customer money will be used for this effort, and, as always, our company will continue to follow every applicable law regarding political speech as well our own political participation policy, found on pinnaclewest.com.

Jim, I'm looping in Jeff and John. Howie is fishing for a story. The IE supports electing the 3 Commissioners. that will best for our customers. If he wants to discuss IE campaign strategy he should speak with the IE.

My plan is to send Howie back to Mati Benson, even though he already has reached out to him. If you feel differently, please let me know.

Thanks,

50 here's the thing.

The totally PinWest funded IE is now involved in defeating ALL Democrats.

Ducey made a robocall earlier -- one funded by your IE - urging people to vote for ALL Republicans on the ticket.

And last night he and Jon Kyl did a tele town hall with Republicans, repeatedly urging them to vote ONLY for Republicans.

I've gotten no real answer from Matt Benson at Veridus which is running your IE. So I come back to you.

I understand PinWest/APS desire for an all-Republican commission. But I do not understand the company spending money to defeat every Democrat. Why is it proper and appropriate to fund such a campaign?

Does APS believe that campaigning against ALL Democrats is proper?

Doing daily story. You've got a couple of hours to come up with some answers.

Thanks.
